

Jack and Jill Preschool Activity outline for:

During May, the teachers will be working with each pre-k child during school time to complete our spring progress reports. When they are completed, they will be sent home with your child.

Monday, May 1: We'll look at how much the children have grown during the past term. We will be weighing and measuring them and we will read a great book about measurement by Leo Lionni, Inch by Inch. The book shows how to measure distance. The children will have the opportunity to measure the inches of many items in the classroom.

Tuesday, May 2: In addition to working on spring progress reports, we will meet a new friend; MAT MAN. MAT MAN helps the children remember the different parts of their bodies (comes in handy when drawing a human figure with at least six parts).

Wednesday, May 3 : Night Day! Send your children to preschool in pajamas! They will also need a sleeping bag or blanket. Pillows, slippers, bed buddies are also welcome!

Monday, May 8: We'll meet one of my favorite bears: Corduroy by Don Freeman. We will read the book and complete a timeline of his adventures in the story. We'll finish by watching a great Corduroy video that the children will love.

Tuesday, May 9: Today we will take some time to explore everyone's magnetic personality! To a preschooler, magnets are magic! How and why do they stick? What will they stick to? Everyone will have a magnet in school to use to explore the classroom and see if we can find the answers to these sticky questions. There will also be some special magnetic toys available for exploration in the star room.

Wednesday, May 10: Sunday is Mother's Day, the children will make something nice for their mothers.

Monday, May 15: Kindergartener for a day! Morning class drop off at Mahoning Elementary school is 8:50 and pick up is 11:15 on the front porch of the school. Afternoon class drop off at Shull David Elementary is 11:50 and pick up is 2:15, on the front porch of the school. **The children do NOT need bookbags!**

Tuesday, May 16: Today we will get buggy and learn about insects. My Big World will help us with; 'What Insect is That?' The children will paint a ladybug or bumble bee to take home.

Wednesday, May 17: Happy unbrithday to our summer birthday friends!

Monday, May 22: Ice cream sundae party sign up sheet will be posted on the porch bulletin board. It's Dinosaur Day! We'll welcome dinos into the classroom and roar and stomp with these amazing creatures.

Tuesday, May 23: We're going to learn about water safety and explore what makes things float or sink. Lots of wet experimenting going on today.

Wednesday, May 24: Last show & tell for the year. Our My Big World newspapers also tell us, "It's Time to Say Goodbye!"

Monday, May 29: Preschool closed for Memorial Day

Tuesday, May 30: Pre-k. family picnic at Phifer's Ice Dam. Teachers will be at the park from 10:00-1:00. Bring your own food and drinks.

Wednesday, May 31: Last day of pre-k. classes. Make your own ice cream sundae party!

Friday night, June 2: Closing Program 6:30 at Trinity. All preschool children will take part in the program and families and friends are welcome!

Wednesday, June 14: Leighton School and Community Pool Event at the Leighton Pool. Jack and Jill will have a table set up that evening. Stop by and say hi!

We hope everyone has a safe, wonderful and fun filled summer.
Thanks for a great preschool term.
